

Project Overview

In the home page, it is list down about the sitemap of the “PRODUCTS”, “ABOUT” and “CONTACT” page. In addition, I also want to let customers knowing our new arrival products and the top 5 sales of products on our store. Moreover, I also add the customers’ feedback to improve the store of the credit.

In the women page, to provide a lot of different matching fashions for ladies to choose because I want to give every lady's having many various clothing styles. In addition, I also add “CLOTHING”, “SHOE” and “HATS & BAGS” to separate the products clearly for customers shopping our products easily.

In contact page, I add a form of the contact to customers for them sending a message to us easily. Also, I provided the store information, such as address, phone numbers, opening time and google map to customers for them visiting us easily.
